An outdoor space to share the things that matter most.

At Trex®, the #1 brand in outdoor living, we believe that a deck is more than just a deck. It's a place to be enjoyed with the people that matter most – not sanded, stained and sealed. And you can feel good knowing that our high-performing, low-maintenance decking is made from 95% recycled materials and comes backed by a 25-year warranty. At Trex, we see it too.

### PWR DRIVE STR: Dimensional Lumber Structural Screw Ideal For Deck Framing

The design of the STR is specific to dimensional lumber used in deck structures and any other framing needs, which allows maximum assembly strength. By figuring out all the possible assemblies of a structure, using a mix of 2" x 6", 2" x 8", 2" x 10", 4" x 4", and 6" x 6", you can cover all possible combinations with only five different lengths of the STR. Fewer screws are necessary to cover anything you may encounter on the jobsite. Each pack of STR includes a handy reference for the correct lumber combinations ideal for a specific length plus the required T-40 bit.

### Repairing Or Building A Deck

Make sure it's safe and strong by using the proper hardware. Secure beams and joists of your deck with a variety of LUS joist hangers and Strong-Drive® Connector Screws by Simpson Strong-Tie. The LUS joist hangers are designed to provide support underneath the joist, rafter, or beam of your deck for a strong connection. To select connectors rated for outdoor use – look for ZMAX® (G185) or stainless steel. The Strong-Drive® SD Connector Screws are designed to replace nails; mechanically-galvanized for exterior conditions and work with Simpson Strong-Tie® connectors to make deck building stronger and easier.

### Deck Foot

12" x 12" x 8". Easy to use concrete deck footing. For 4" x 4" and 6" x 6" posts.
