Summerside Steel Shingles

Summerside steel shingles combine the rustic look of cedar shakes with the strength and longevity of steel and are designed to outlast and outperform traditional roofing materials. They are precision engineered from 28 gauge steel with a double embossed finish. The unique four way interlocking system tightens on all four sides to resist wind uplift and heavy snow loads. And because they are non-combustible, the steel panels cannot catch fire. Available in an assortment of natural colours to enhance and compliment the look of your home. See in-store for details. May be special order.
